* A Complete Guide to

Daily Number Revision

Student Write-On Workbook - Book 1

(Suggested use at Years 1 / 2)

is one of a series of **SEVEN** resources covering the **NUMBER STRAND Achievement Objectives** as outlined in the **NZ Mathematics Curriculum**, plus the **Numeracy Facts** of addition, subtraction, multiplication and division.

The **Number Strand Achievement Objectives** and the **Numeracy Facts** are the building blocks for success in all other strands of the Mathematics Curriculum. These resources have been designed to systematically cover these facts and provide teachers / pupils with a methodical way of introducing, developing and revising the **Number Strand** and **Numeracy Facts** on a daily basis.

How do I find my way around this resource?

This resource has been divided into **SECTIONS** as listed below.

Section	Information
1 (Pages 3 & 4)	Information about this resource and notes for pupils & parents / care-givers
2 (Pages 6 to 9)	Column graphs numbered 1 to 150. Once each of group of questions has been completed, mark your answers and graph your results.
3 (Pages 11 - 40)	150 Daily Number Revision Tasks, with space on each to record date, time taken to complete and score.
4 (Pages 42 - 48)	Formal Assessment ideas and Two Parallel Assessment Worksheets

For more information about these and other resources, please contact ...

☎ (03) 338 0516

☎ (03) 338 0514

e-mail: aws.resources@xtra.co.nz

About this resource:

The **aim** of this resource is to provide a **systematic way** of introducing and revising the **Numeracy Facts (Number Knowledge)** and various **NUMBER STRAND Curriculum Achievement Objectives**, so that your child will be able to recall these facts with **accuracy** and **speed**. Knowledge of these facts forms the foundation for a pupil's confidence and success in all areas of mathematics.

In **Section 3** of this workbook there are 5 sets of questions per A4 page. There are 8 questions on the **Numeracy Facts (Number Knowledge)** and 1 to 6 questions involving the **NUMBER STRAND Curriculum Achievement Objectives**. It is intended that **one set** is to be completed **per day for 30 weeks of the year**. This would establish a routine of working on learning / revising the Numeracy facts / Number Strand questions every day in a structured way.

Above each set of questions there is a place to record the **time taken** to complete the questions. You can do the timing one of two ways. Either time the first 8 questions only (Numeracy facts) so that you can compare daily results or time how long it takes to complete all questions per set. As your child's confidence improves, set a time limit to complete the questions, especially questions 1 to 8 (Numeracy facts).

It is important that your child gets **immediate feed-back** by way of having the questions marked and their results can be plotted on the column graphs supplied in **Section 2**. As an extension activity, similar questions as contained within each set could be made up and asked orally.

There are two **Parallel Assessment Activity Sheets** included in **Section 4** covering the Numeracy facts and Number Strand Objectives that can be used as **pre or post assessments** to determine your child's prior numeracy / number strand skill level or to show improvement that has been made. For more information about assessment, see page 41.

Answers are provided for all questions in Books 2 to 7.

Numeracy / Number Strand activities in Book 1 (Years 1 / 2)

Book 1 (L1N1S) contains 30 A4 sized activity sheets. On each activity sheet there are 5 sets of 9 to 12 questions. The following activities are included in this resource.

☒ **Numeracy Facts:**

- Addition & Subtraction Facts: Sums up to 10 & 11 to 18

☒ **Number Strand:**

- Understanding the words **before, after, between, below, above, first, second, third, last, left and right**.
- **Counting** in multiples of 1, 2, 5 & 10.
- **Counting** objects up to 20.
- **Forming sets** of objects up to 20.
- **Reading** and **writing** 1 & 2-digit numbers in words and as numerals.
- **Ordering** whole numbers.
- Introducing 1's & 10's **place value** using a simple abacus.
- **Renaming** 2-digit numbers as 10's & 1's
- **Finding** $\frac{1}{2}$ and $\frac{1}{4}$ of a given shape or group of shapes.

				10. _____

Note to Students:

I am sure you would love not to have to do homework. However, we will only get better at many things we do or learn, if we practise. I am sure you have heard the old saying 'practice makes perfect'.

In class you are shown and taught lots of new ideas. The reason for doing your homework is to practise what you have been taught in class. If you can do it on your own at home, or maybe with a little help from someone at home, then it shows you have remembered what you were shown in class.

No-one can make you learn. Your teachers, parents / caregivers and friends can help, but at the end of the day it's up to you. You do not have to always get it right, as long as you have tried to do the very best you can. Remember to ask for help if you do not understand or if you are not sure of what you have to do.

This resource has been written to help make doing your homework easier for both you and your teacher.

Good luck.

Note to Parents / Caregivers:

You may not have found mathematics easy when you were at school nor do you have to be good at it. All you have to do is encourage your son / daughter to do the very best he / she can. We cannot ask more from our children, than they are able to give. Try to be realistic with your own expectations of how well you think they should be doing at school.

To help your son / daughter, here are some ideas ...

- ☑ Provide a place where they can work quietly without too many distractions. Background music is okay, but television is too distracting because of the pictures.
- ☑ Provide them with the equipment they need.
- ☑ Help them work out when is the best time to do their homework, encouraging them to establish routines. Remember they do need some time off to enjoy themselves, so do not expect them to work all the time.
- ☑ Give them plenty of encouragement and praise. Mark their work and encourage them to complete each column graph to plot their results.

Our children need our support and encouragement if they are to do well. If your son / daughter is having a lot of trouble understanding the work, it may be a good idea to contact their teacher to talk about the best way you can help.

Good luck.

Successful learning requires teamwork.

Column Graph Masters

Use the column graphs on the following pages to plot your child's progress.

Mark each set of questions, then graph the results.

Graphing the results gives visual feedback.

Assessment Section

There are **TWO** parallel **Assessment Sheets**, divided into **FIVE** sections.

Example: A1 = Numeracy facts / Number Knowledge assessment appropriate for each resource.

A2, A3, A4 & A5 cover the Number Strand objectives from the appropriate level.

The **Assessment Sheets** are divided into **FIVE** sections so that the entire assessment does not have to be completed all at the same time.

One Assessment Sheet can be used as a **pre-test** to identify the Numeracy / Number Knowledge skill level your child is already working at and / or the Number Strand knowledge your child has. The remaining Assessment Sheets can be used as a **post-test** to determine the improvement made.

The 'Complete Guide to Daily Number Revision' is a **skills mastery** programme.

The **degree of accuracy** required may seem high, but if your child knows what standard is expected, they have something to aim for.

The objective is for your child to be able to **recall** the **basic numeracy facts / Number Strand Objectives** with **accuracy** and then later on with **accuracy** and **speed**.

At the bottom of each section (A1 to A5), there is a place to record the number of correct answers, obtained by counting all possible correct answers (ticks).

Example: There may be 10 numbered questions, but 30 individual questions.

Marking Schedule (Circle S, A or D)	
S = Shows strength (30 all correct)	
A = Achieved (24 to 29 correct)	
D = Developing (less than 24 correct)	

The **degree of accuracy** required is shown in the table below.

Descriptors	Degree of Accuracy Achieved	Example:
S = Shows Strength	100% accuracy	30 out of 30
A = Achieved	80% - 99% accuracy	24 to 29 out of 30
D = Developing	less than 80% accuracy	less than 24 out of 30

The **descriptors** listed in the box are used to describe the mastery skill level your child is working at.

On these sheets you can either record the actual score or circle one of the descriptor letters **S**, **A** or **D**.

Marking Schedule (Circle S, A or D) S = Shows strength (15 all correct) A = Achieved (12 to 14 correct) D = Developing (less than 12 correct)

40

Working space:

- (1) **Colour** in the circle that is **after** the square.

w h s j k y

- (2) Which letter is **last** in the list above? _____

Which letter is **third** in the list above? _____

Which letter is **first** in the list above? _____

- (3)  **Colour** in the circle that is on the **right**. 

- (4) **Colour** in the square that is **above** the line.

- (5) **Count** each group of shapes.

- (6) Forming a set of objects by colouring in.

Colour in 7 circles. 

Colour in 9 triangles. 

Colour in 12 squares. 

Colour in 18 circles. 

Marking Schedule (Circle S, A or D)

S = Shows strength (14 all correct)
A = Achieved (11 to 13 correct)
D = Developing (less than 11 correct)

14

- (1) **Draw** lines between the numbers and the matching number words.

3	six	one	8
10	ten	eight	4
6	three	four	1

- (2) As you count in 1's, what number comes **before** ...

12 _____ 26 _____ 34 _____ 47 _____

- (3) As you count in 1's, what number comes **after**...

14 _____ 29 _____ 38 _____ 41 _____

- (4) As you count in 2's, what number comes **before** ..

8 _____ 14 _____ 20 _____ 24 _____

- (5) As you count in 2's, what number comes **after** ...

2 _____ 8 _____ 16 _____ 20 _____

- (6) As you count in 10's, what number comes **before**

30 _____ 50 _____ 70 _____ 90 _____

- (7) As you count in 10's, what number comes **after** ..

10 _____ 30 _____ 50 _____ 80 _____

- (8) **Write** these numbers in order of **smallest** to **largest**.

35, 7, 16, 42, 29

- (9) **Write** these numbers in order of **largest** to **smallest**.

64, 91, 70, 53, 67

Marking Schedule (Circle S, A or D)

S = Shows strength (34 all correct)
A = Achieved (27 to 33 correct)
D = Developing (less than 27 correct)

34

- (1) Write the 2-digit numbers that match these number words.

nineteen

forty-five

fifty-four

ninety-one

19

45

54

91

- (2) Count the number of rings on each peg. What number does it make?

10's

1's

number =

- (3) How many 1's in 43?

- (4) How many 10's in 89?

- (5) Draw rings on each abacus to show each number.

76

39

- (6) Fill in the gaps as you rename these numbers into 10's and 1's.

49 = _____ 10's + _____ 1's

52 = _____ 10's + _____ 1's

Marking Schedule (Circle S, A or D)

S = Shows strength (15 all correct)

A = Achieved (12 to 14 correct)

D = Developing (less than 12 correct)

15

- (1) Colour in one half of this shape.

- (2) Colour in one quarter of this shape.

- (3) Colour in a $\frac{1}{2}$ of this shape.

- (4) Colour in a $\frac{1}{4}$ of this shape.

- (5) Colour in $\frac{1}{2}$ of this group of shapes.

- (6) Colour in $\frac{1}{4}$ of this group of shapes.

- (7) How much money is in Jack's money box?

Jack's Money Box

+

--

Marking Schedule (Circle S, A or D)

S = Shows strength (All 7 correct)

A = Achieved (6 correct)

D = Developing (less than 6 correct)

7
