Help Me at Home Series

Mathematics
Student Workbook

A series for parents / care-givers ….

This series has been written especially to help parents / care-givers help their child at home.

Each resource systematically **introduces** and **revises key number knowledge facts** AND also covers other important areas of the mathematics curriculum ...
number & algebra,
measurement & geometry
and **statistics**.

By using this series, you too can find out how mathematics is being taught in schools today and therefore be of more help to your child, should problem areas arise.

Eight resources are available covering Years 2 to 9.

To find out more about this series and other resources available, contact Andrew by e-mail at aws.resources@xtra.co.nz to get the latest info.

Written in NZ for NZ

Note from the author:

♦ The **aim** of this **Homework Diary** is to co-ordinate and support the homework programme at your school.

♦ The use of this **Homework Diary** adds to the importance of the homework that is being set.

♦ **Educational research** shows that homework needs to be regular to be most effective.

♦ Homework reinforces skills and knowledge gained in the classroom and increases a child's confidence in his / her own ability.

♦ Each diary contains ...
  □ a contract to be signed between child, care-giver and teacher,
  □ helpful ideas for parents / care-givers,
  □ pages to record homework for 20 weeks,
  □ a prepared **spelling list** of 10 words on each page,
  □ a space for your child to record his / her own spelling words,
  □ a space to practise writing his / her spelling words,
  □ a space to record stories your child has read during the week,
  □ a prepared list of **basic number facts**, providing a regular maintenance programme,
  □ a prepared **English** or **Mathematical** activity for each week,
  □ a space to record the **AWS *Teacher Resources*** homework sheet to be completed each week,
  □ a space to record other homework to be done during the week, plus forth-coming events,
  □ a **'Tasks completed'** check list,
  □ a space for care-givers to write comments,
  □ a space for the classroom teacher / Principal to write comments.

Successful learning requires teamwork ...
Homework Contract

Child

I, _____ of Room _____ ,

will try to do my best work.

Parent / Care-giver

I / We, _____

and

_____ ,

will encourage and help my / our child to complete his / her homework to the best of his / her ability, and to support the classroom teacher.

Teacher

I, _____ ,

the teacher of Room _____ children,

will set and mark homework regularly, and encourage all children in my care to do the very best they can.

Signed by ...

Classroom teacher:

_____ Date: _____

Teaching ideas for parents / care-givers:

The following steps can be used to help children to **learn** to spell a new word.

- □ **Say** the word, and use it in a sentence.

- □ **Look** at the word and **study** its **shape**.

- □ **Copy** the word, checking that it is copied correctly.

- □ **Say** the word again and **spell out** the **letters** of the word.

- □ **Write** the **word** as the **letters** are **spelt out**.

- □ **Write** the word **again**.

- □ **Cover** the **word** up and **write** the word again.

- □ If the word is spelt correctly, move on to the next word.

- □ If the word has been incorrectly spelt, **repeat** the steps above until the word is spelt correctly.

- □ If the word is correct, move on to the next word.

The words listed in this diary include words most commonly used by children as they write their own stories.

At the back of the diary is a **complete list** of these spelling words in alphabetical order. Each word appears twice in the diary lists.

Any word that your child cannot spell correctly after a few attempts could be added to the **'My spelling list'** column for the next week.

Writing out each word on scrap paper, provides a good opportunity for your child to practise his /her writing skills.

Look	Listen	Write

In this diary, all **number combinations** that **add up to 18** are revised in the form of adding and subtracting 3 digit numbers. The numeracy facts are presented as three addition and three subtraction problems. A complete list of the **addition** and **subtraction 'family of facts'** for combinations up to 18 are listed at the back of the diary.

The **7x, 8x** and **9x multiplication & division facts** are revised in this diary. Your child can begin to learn these facts by repeated addition in **7's, 8's** or **9's**. After all, multiplication is short-hand addition.

Example: 7, 14, 21, 28, 35, 42, 49, 56, 63, 70.

By knowing these facts, your child can work out what 5×7 is by saying the first 5 multiples of 7, i.e. 7, 14, 21, 28, 35 ... therefore the answer is 35.

The following steps can also be used, when learning these facts.

Example: Your child is asked to multiply '3 × 7'.

- □ **Look** at the list of multiplication facts printed at the back of the diary to find the answer.

- □ **Say** each multiplication fact.
  Example: *"three multiplied by seven equals twenty-one."*

- □ **Write out** the basic number fact and say it again.
  Example: 3 × 7 = 21

- □ Go back to the weekly homework page and **answer** the multiplication questions, without looking at the back of the diary for the answers.

At the back of this diary is a table containing all the multiplication facts for the numbers 1 to 10. The 11x & 12x facts have been included for extension. This table has been included to help your child learn these facts.

The **aim** when learning the basic numeracy facts is for your child to be able to instantly recall the answers quickly and accurately.

Remember, practice makes perfect and learning requires effort from your child and encouragement from you.

As a parent / caregiver your involvement in your child's homework, your interest and encouragement could result in a greater effort from your child and the positive benefit of an increased self-esteem.
